

D1.3 Project web page (=D8.6)

Author: Anita Jacobsen

Revision: v01
Date: 30.06.14

Approved: Helge Sagen

A project web page has been established for the project NMDC (Norwegian Marine Data Centre) – www.nmdc.no.

Work package 1 (Coordinator) has been responsible for establishing the project web page in collaboration with the communication department at Institute of Marine Research (IMR) and work package 8 (= D8.6). The Coordinator will be responsible for maintaining the web page during the project life time.

The web page includes information about the NMDC project such as data sets, data policies, about the project, news and other relevant information.

Figure 1. Screen dump of the web page www.nmdc.no.

The web page is available in both Norwegian and English and will be continuously updated. All partners are asked to contribute with news and other material.

The web page will also serve as a portal for search of data sets.
